

The slide features a white background with abstract green geometric shapes on the left and right sides. The shapes are composed of overlapping triangles and polygons in various shades of green, ranging from light to dark. The main title is centered in a large, bold, green sans-serif font.

Alaska Smart Communities Forum

February 7, 2017

Agenda

- **8:30 - Introductions and Survey Results**
- **8:45 - Feedback on Forum Charter**
- **9:15 - Project Updates**
 - 211, Collector App, Transportation Portal
- **9:45 - Break**
- **10:00 - City of Centennial, CO**
- **10:45 - Portal Projects**
 - Matsu, DNR, Muni
- **11:30 - Lunch; Portal Vision**

Survey Results

- ▶ Forum is important to help accomplish goals and objectives.

- ▶ Agree that Forum participants pursue shared solutions.

Survey Results

- ▶ Agree with an Advisory Group to drive agendas, select projects, pursue funding

- ▶ Moderate interest contributing time and staff to projects and Forum

November Survey 'Quotes'

- Publish directory of data sources and applications
- Understand what data is available
- Be less vendor-specific focused...invite everyone
- Pursue shared projects, shared services
- Understand demand for data services
- More public involvement
- Create matrix of what software groups are using and datasets to see paths for collaboration
- Elevate discussion on big picture while continuing to build on the momentum on available resources

October 'Quotes'

- Authoritative data sources; what data is available
- Community access to data; data entry by citizens
- How to add value to current data available
- Adopt data standards
- Data sharing agreements; unified data model
- Platting - more visible, but keep private data private
- What data and apps could we make right now?
- Most important information that we don't have yet
- What are we getting done?

Agenda

- 8:30 - Introductions and Survey Results
- **8:45 - Discuss Forum Charter**
- 9:15 - Project Updates
 - 211, Collector App, Transportation Portal
- 9:45 - Break
- 10:00 - City of Centennial, CO
- 10:45 - Portal Projects
 - Matsu, DNR, Muni
- 11:30 - Lunch; Portal Vision

Forum Vision

Catalyst for Education, Partnerships, Data exchanges, Tools, Shared projects and Resources to deliver more useful information and tools to citizens, customers, and businesses.

Goals

- Form a nucleus to serve and enable communities to create their own Smart Communities;
- Provide useful, integrated information and services;
- Enable citizens to create value-added services from more, better integrated data, tools;
- Enable citizens to be better informed of resources, services and economic opportunities;
- Enable employees to be more efficient, responsive and effective;
- Reduce duplication in data collection and tools available to residents and businesses;
- Enable citizens to be more involved in government.

Scope

- Data: identify sources, how to use, share and collect among agencies
- Services: integrating, analyzing and visualizing data of interest
- Education: what other cities, organizations are doing
- Partnerships: sharing resources/data/investment

Objectives

➤ Data

- Identify **top priorities** for data gathering and sharing.
- Identify **common practices** for the development of data and services.
- Establish data **portal framework**; acknowledge different data portals.
- Establish data portal including a **directory of 30 data sources** and data sets in **formats usable** by other agencies and businesses.
- Enable a data portal where the **public can host data**.
- Create a **data dictionary** that describes for each data set the purpose.

➤ Services

- Facilitate **applications** for the public.
- Facilitate **application services** (e.g. API) that improve workflow or other efficiencies useful by participating organizations.

Objectives

➤ Education

- Conduct **Forums**...guest speakers, local ideas, advice, methods
- Participants **maintain their own education** to their own citizens, customers and members.

➤ Partnerships

- Determine **methods** how participants can work together as a group.
- Identify partners for **statewide dataset stewardship**, working groups.
- Establish **Working Groups** (e.g. data standards, funding sources, communications) to support the Key Elements above.
- Identify **multi-jurisdictional projects** involving two or more agencies and organizations. This can be informal or formal (e.g. MOU).
- Determine whether and how a **shared service model** would work with regard to data, applications, tools, training.

Success Criteria

➤ Community Success

- Livability in the community
- Economic growth
- Transparent and efficient government
- More engaged citizens
- More informed decisions

➤ Forum Success

- Education and knowledge gained from Forum events
- Number and type of opportunities identified
- New information and services provided
- Degree of resource sharing and partnerships

Organization & Planning

➤ Quarterly events

- for education, projects, demo's, networking; expand to officials and executives.

➤ Working Groups

- to identify and lead projects; ensure focused attention and progress on an area of interest.

➤ Advisory Group

- for guidance on program charter, goals, projects, events, partnerships and program.

➤ Program Manager

- to coach, monitor, facilitate; staffed or contracted by member of Advisory Group.

➤ Vendors

- with experience, services to meet objectives.

➤ Executives

- to have them gain knowledge, provide guidance.

Operating Guidelines

➤ Volunteer and shared effort

- Host events, present ideas and initiatives, share facilities.
- Not expect a few entities to fund initiatives of other agencies.

➤ Not replace existing processes and projects

- Follow existing processes for resource sharing across jurisdictions.
- Ideas and funding flow into formal channels between participants (i.e. follow existing rules to fund and partner on projects).

➤ Consider other organizations, solutions

- Participants lead own projects but consider ways to share, leverage.
- Recognize efforts and interests of other agencies, businesses, groups.
- Expand participation of entities with interest or stake in the outcomes.
- Vendor agnostic, invite solutions of various companies.

Assumptions & Risks

➤ Assumptions

- Participants **more effective** with the Forum, working together.
- Participants **actively support** vision, goals and objectives of the Forum and invest time and resources on projects.
- Participants **allocate time** during the year on events and projects.
- Focus on issues and topics of **common interest**: Community Services, Public Safety, Transportation Access, Land Use Planning, Job Growth, etc.
- Participants work to **connect and leverage data sources**, not recreating them, reducing independent data silos.
- Participants **build analytic capacity** and skills within their organizations.

➤ Risks & Constraints

- Limited **staff and funding** for the Forum and its planned activities.
- Decreasing **interest and participation** in Forum events.
- Level of **effort** in assigning staff to projects.

Agenda

- 8:30 - Introductions and Survey Results
- 8:45 - Feedback on Forum Charter
- **9:15 - Project Updates**
 - 211, Collector App, Transportation Portal
- 9:45 - Break
- 10:00 - City of Centennial, CO
- 10:45 - Portal Projects
 - Matsu, DNR, Muni
- 11:30 - Lunch; Portal Vision

- 9:15 - Project Updates
 - 211, Collector App, Transportation Portal
- 9:45 - Break
- 10:00 - City of Centennial, CO
- 10:45 - Portal Projects
 - Matsu, DNR, Muni
- **11:30 - Lunch; Portal Vision**

Portal Vision & Plan

- Do we want a Common Portal?
- How would a Shared Service work?
- How agree on Format, Authoritative Sources?
- How avoid overlapping portals, data?
- How enable access to data by the Community?

What Next

➤ Portal Working Group

- Inventory portals and data available (task from July)
- Define a framework, share with Forum
- Get initial partnering agreement among Matsu, DNR, Muni, others

➤ Services Working Group

- Deploy and share apps; partner w/ tech and university groups

➤ Advisory Group/Program Manager

- Set-up, complete charter; decide data focus for 2017
- Set-up online discussion group

➤ Events

- Geoportals Workshop - Feb 14
- Community/Tech Workshop - TBD
- Next Forums - May 9 @Atwood; Aug 9 @BP Energy Center
