The image shows a screenshot of a government website's navigation menu. The 'Services' tab is highlighted in blue. The menu is organized into several categories, with several items highlighted in yellow. The background of the website is dark grey, and the navigation bar is black with white text. The 'Services' tab is the active one, and it contains a list of various services and links. The 'Services' tab is highlighted in blue, and the items under it are listed in a grid-like fashion. The items are: ANIMAL CARE (Animal Shelter, Animal Shelter Facility, Adoptable Animals, Lost and Found Pets), ENFORCEMENT (Code Compliance, Junk and Trash, Development and Setbacks, Filing a Complaint, Fireworks), TAXES (Taxes and Due Dates, Online Payments, Personal Property/Business, Inventory, Tax and Value), ROADS & UTILITIES (Closures, Maintenance, Signs, Street Lights, Talkretna Water & Sewer), FORMS & DOCUMENTS (Forms, Documents, Studies), WASTE SERVICES (Solid Waste Division, Central Landfill, Transfer Sites, Services and Rates, Community Clean-Up, Recycling), PERMITTING & PLATTING (Permit Center, Driveway Process, Use of Borough Land, Zoning, Platting, Subdivision Construction, Manual), and ECOMMERCE (MSB eCommerce Site, Taxes, Pay Ambulance Fees). There is also an EMERGENCY SERVICES section with links to Emergency Services Department, EMS, Water Rescue, Ambulance Billing, Preparedness, Fire Code & Life Safety, and Central Mat-Su Fire.

Road centerlines with road names, address ranges, and some classifications based on type. Is used to create MSAG table for E911 program and is suitable for geo-coding purposes. Original data was aggregated by a consultant (McLane Consulting of Soldotna, AK) as a part of the original addressing/911 project. Centerlines were interpolated from existing digital CAD drawings of property and ROW lines. Consultant (McClane) then did field work to append

HIGH USAGE DATA

MSB Aerial Imagery

Aerial imagery is a powerful tool for making well-informed decisions, seeing changes over time, and reducing field work efforts. It supports government services, commercial ventures, and private endeavors.

The Borough GIS Division works with local vendors to acquire imagery and then makes it available to project partners, private businesses, and the public.

This page explains how to access MSB aerial imagery (including the use of web services), provides information about most recent aerial imagery projects (2019-2021, 2017/2016, and 2011), and introduces the MSB Recurring Aerial Imagery Program. To see all the content, please scroll down through the page.

Access the Data

Parcel Viewer

Easy to use online map with property information. Imagery from 2019, 2017, 2016, and 2011 can be turned on/off on the layer pane.

Imagery Through Time

Easy to use online map that allows folks to compare the 2011, 2016, and 2017 imagery, using a slider tool.

MSB Web Services

not a clickable link

Online web services that can be used in ArcMap, AutoCAD, ArcGIS online, and other mapping applications. See the Using Web Services section on this page for more info.

State Web Services

The Alaska Geospatial Council also provides imagery web services, including a statewide base data layer in WMS format. This layer includes the best available data throughout the region.

Order Data

Order a hard-drive that contains the 2019, 2017, and 2016 imagery. \$150 (plus shipping).

Using Web Services

Web services are a way to access GIS data, such as imagery, over the web. These services can be used by various software.

The MSB currently publishes web services for 2019, 2017, 2016, and 2011 imagery.

See the Helpful Documents section (below) for maps of each project area and documents explaining how to add an imagery service to ArcMap, ArcGIS Pro, and AutoCAD.

For security reasons, the MSB rest end point can no longer be accessed through a web browser.

2019 - 2021 Imagery Project

In March 2019, the Matanuska-Susitna Borough selected a local vendor to collect more than 3,000 square-miles of updated imagery in the Borough, with roughly 1,000 square-miles flown each year from 2019 - 2021. The table below outlines the areas by year, type of imagery, and pixel resolution.

Year	Region (General Description)	Size	Imagery Type & Pixel Resolution
2019	Area 1 - Core Area, from MacKenzie, Glenn Hwy corridor plus two natural resource management units	1,152 sq mi	4-band orthoimagery (RGB-NIR) 6-in pixel resolution (or less) for 367 sq mi 1-ft pixel resolution (or less) for 785 sq mi
2020	Area 2 - Renix Hwy Corridor	1,036 sq mi	4-band orthoimagery (RGB-NIR) 6-in pixel resolution (or less) for 22 sq mi 1-ft pixel resolution (or less) for 1,014 sq mi
2021	Area 3 - Petersburg Rd, Ohlsen Rd, Susitna River plus Central	1,159	4-band orthoimagery (RGB-NIR) 6-in pixel resolution (or less) for 1,159

MSB Elevation Data

Elevation data goes by many names, including topography, contours, TIN, DEM, and more. It can be created using various methods, including photogrammetric analysis and laser (LiDAR) or radar (fSAR) sensors. Elevation datasets have many practical uses including site planning, cut/fill calculations, stream and floodplain delineation, and watershed analysis.

Point Cloud of Old Matanuska River Bridge near Palmer

Projects by Year

2011 LiDAR & Imagery Project

The 2011 LiDAR & Imagery Project resulted in the collection of high-resolution elevation data and aerial imagery for 3680 square miles of the Matanuska-Susitna Borough (MSB) as well as the development of numerous ancillary datasets. Products include point clouds, two-foot (2') contours, digital elevation models, digital surface models, hillshades, and more.

1986 Topography Maps (Core Area)

Five-foot (5') contours created using photogrammetric methods from aerial photographs taken in 1986.

UP AND COMING OPPORTUNITIES

The screenshot shows the website for the Matanuska-Susitna Borough. At the top, there is a navigation menu with links for Government, Services, Business, Property & Taxes, Life & Place, and About. Below the menu is a search bar and a banner image of a snowy mountain landscape. The main heading is "Contract Opportunities".

Below the heading, there is a welcome message: "Welcome to the Matanuska-Susitna Borough Contract Opportunities Website. This website provides contracting and purchase opportunities currently available for and the upcoming needs of the Matanuska-Susitna Borough." It also includes a statement of intent: "The intention of this website is to provide a central location for the general public, vendors, contractors, professionals and citizens for the Matanuska-Susitna Borough (MSB). The intent of the Purchasing Division is to ensure that each Borough agency is supplied with the highest quality goods, services and services at the best price, quickly, efficiently, and economically. We cannot do that without the active participation and cooperation of the business community. We recognize that neither of us can be successful without the other. If you encounter problems with a solicitation document, contact us. We will do everything in our power to resolve the problem in the shortest possible time."

There are three main sections on the page:

- See New Contract Opportunities at Bonfire Portal**: A green button with a Bonfire logo.
- Get Borough Guides on Public Surplus**: A yellow button with a P/S logo.
- Documents**: A section listing various documents like "RFP Request for Proposal Form", "RFP Request for Proposal Instructions", "Request for Proposal and Bidding", "Request for Business with MSB", and "New Vendor/Contractor Application".

At the bottom, there is a "Contact Information" section for the Purchasing Division, located at 220 E. Dahlia Avenue, Palmer, Alaska 99645. Contact details include phone numbers (907) 264-8600 and (907) 264-4377, and an email address: purchasing@matnugov.us.

Below the contact information, there is a section titled "Open Public Opportunities on MSB on Bonfire Portal". It explains that users should visit the Bonfire portal to view current and upcoming opportunities. It also lists "Contract Opportunities are defined as:"

- Requests for quotes (RFQ)
- Requests for proposals (RFP)
- Requests for proposals (RFP) - design
- Requests for proposals (RFP) - design-build

It also notes that the purchase order is not available to download and that users should contact the purchasing division for more information. A green arrow points from this section towards the larger opportunity cards on the right.

At the bottom of the screenshot, there are three smaller opportunity cards, each with a "View Opportunity" button:

- 19-118P - (Test) Landfill Development Plan**
- 20-054P (test) - Engineering Design and Construction Management for Circle View Dike Upgrades (test)**
- 19-123P - (Test) Design Station 6-1 Improvements & Addition**

Open Public Opportunities on MSB on Bonfire Portal

19-118P - (Test) Landfill Development Plan

Description: The Matanuska-Susitna Borough (MSB) is requesting proposals from qualified firms for long range planning services for the Central Landfill (CLF), located in Palmer, Alaska. The scope of work includes developing an updated Landfill Development Plan, including a Leachate Management Plan and a new Landfill Gas (LFG) Management Plan. MSB intends to evaluate various future landfill operations and capital projects. These include plans and costs associated with opening, operating and c...

UP AND COMING OPPORTUNITIES

The screenshot shows a web browser interface for a project titled "Contract Opportunities RSS Parser with FeedEk" by Jack Horner. The interface includes a code editor with three panels: HTML, CSS, and JS. The HTML panel shows a simple structure with an h3 tag and a div. The CSS panel shows styles for the feed list and items. The JS panel shows a function for parsing the feed. Below the code editor is a preview of the RSS feed content, titled "Open Public Opportunities on MSB on Bonfire Portal". The preview shows five items, each with a title and a description. The items are:

- 19-118P - (Test) Landfill Development Plan**
